

FOR SALE – NEW, SEALED IN THE BOX: \$500

GE Watt-Station Wall Mount, Public Adapter Plug

The GE Watt-Station Wall Mount EV charger is suitable for commercial and residential indoor and outdoor locations. The **GE-Watt-Station Wall Mount offers Level II charging**, which is capable of reducing charge time from 12-18 hours to 4-8 hours, with service needs of **208-240-Volt AC at 30 Amp** assuming a 24 kWh battery and a full-cycle charge.

- Watt station has a wide variety of features that make it reliable and beneficial to users in many different contexts
- **Portable and Wall mounted** application
- **20 ft. cord** wraps conveniently around the unit keeping it organized and off of the ground
- Features a NEMA 3R non-metallic exterior
- **Power button allows the user to completely shut off** power to the charging station, resulting in zero energy consumption
- Green backlit charging icon will illuminate to signal that the vehicle is charging, and a red backlit icon illuminates to signal a fault has been detected
- **LED light surrounds** the connector inlet and will illuminate white when the charging station is powered on
- 2-piece mounting bracket designed for single personal installation and removal
- Enclosure lock is featured on the mounting brackets to prevent unwanted removal of the enclosure from the wall
- Nuisance tripping avoidance and auto re-closure
- Vehicle ground monitoring circuit
- **Meets all of the following standards compliances:** SAE J1772; NEC 625; UL 2231, 2251, 2594; NEMA and NIST; CUL 2594 and 2231
